

AXECO EcoCut Punching machine V8

The punching machine V8 for craft and industrial applications. The EcoCut family of automatic punching machines developed from numerous applications. For the first time, the craftsman was able to use a fully automatic and transportable punch with high punching performance with a small set volume.

Product description

- Capacity: 120 strokes per min
- Bandwidth min: 50 mm
- Bandwidth max: 280 mm (can be added on request)
- max. punching distance: 35 mm
- max tool diameter: 60 mm
- material thickness: 0,75 mm Steel / 1 mm aluminum - Copper

Tension: AC 400V 50/60 Hz

Power: 1,5 KW / 10A
